Dear Friends and Colleagues,

Happy Fall! It was so wonderful to see so many of you in San Antonio, TX for our first-ever Genetics Summit. We hope you all had a good trip and made it safely back home.

This event served as an educational and networking opportunity for stakeholders from all sectors that MSRGN serves. Continuing education credits were provided for physicians, nurses, social workers and genetic counselors. Our State Teams also met to present to one another about their team projects, as well as share experiences and resources.

We hope those of you who attended were all able to fill out the evaluation form (the pink sheet!) to provide us with the valuable feedback we will need, moving forward in planning future events. But if you found it in your suitcase when you got home and forgot to turn it in, or lost it on the way to dinner, no worries- we are still accepting them! Please [email](#) Annette for assistance.

2018 Genetics Summit

We would like to thank our speakers and attendees for making this year's Genetic Summit a success. The sessions were filled with information from both a clinical and consumer perspective.

Thank you 2018 Genetics Summit Sponsors

We would like to thank this year's Genetic Summit Sponsors: Biomarin, PerkinElmer, Prevention Genetics, Recordati Rare Disease, and Shire.

State Team Spotlight: New Mexico

New Mexico State Team has purchased two iPad's that are being used to conduct one-on-one interviews to understand the needs, gaps in services, resources and barriers to care for families who have special needs children living in rural communities. The team also recently applied for HRSA grant to help fund telegenetics in the state.

Warm regards,
