

CHILDREN'S HOSPITAL COLORADO AND ECHO COLORADO PRESENT

Genetics ECHO-Lite Education Session

Wednesday, June 20, 2018 • 12 to 1 p.m.

Teleconference via ECHO-Lite (Vidyo Link and Instructions sent upon registration)

Overview

This activity for the interdisciplinary healthcare team will introduce participants to the Mountain States Regional Genetics Network with the goal of making genetic services more accessible to patients, families and clinicians through online learning and consultation. This session will cover some new developments in genetic diagnosis and treatment, and participants will have the opportunity to shape the content of future sessions in terms of topics and presentation of case scenarios.

Objectives

Upon completion of this session, participants should be able to:

- Describe the broad reach of genetics into pediatric healthcare.
- Identify genetic topics of relevance for primary care clinicians to improve expertise and aid patient/family care.
