

CHILDREN'S HOSPITAL COLORADO PRESENTS...

Genetics Virtual Education Series

Every 2nd Tuesday of the Month • 12 to 1 p.m.

Via Teleconference (Zoom Link and Instructions sent upon registration)

Overview, Target Audience, and Learner Outcome:

This activity, designed for the primary care providers and interdisciplinary healthcare teams, will include a wide range of genetic topics such as review of common genetic disorders, consenting and testing technologies, referral indications, emerging treatments and management, and ethical issues. In addition to a presentation from content experts, attendees will participate in case study review and discussion to provide direction on clinical practice. As a result of this activity, learners will be able to apply new knowledge to ensure current, evidence-based care to their pediatric patients.
