

CHILDREN'S HOSPITAL COLORADO PRESENTS

## Genetics Virtual Education Series: Ehlers-Danlos Syndromes - more than just skin and joints

Tuesday, November 10th, 2020 • 12 to 1 p.m.

Via Teleconference (Zoom Link and Instructions sent upon registration)

### Overview, Target Audience and Learner Outcome

This activity, designed for the primary care providers and interdisciplinary healthcare teams, will include a wide range of genetic topics such as review of common genetic disorders, consenting and testing technologies, referral indications, emerging treatments and management, and ethical issues. In addition to a presentation from content experts, attendees will participate in case study review and discussion to provide direction on clinical practice. As a result of this activity, learners will be able to apply new knowledge to ensure current, evidence-based care to their pediatric patients.

### Objectives

- Understand general concepts in clinical genetics and describe rapidly advancing genetic testing technologies in aiding of diagnosis, management, and treatments.
- Identify the role that primary care providers and interdisciplinary healthcare teams have in evaluating and providing management of common genetic disorders.
- Develop a level of comfort with the initial genetic evaluation of common indications and offer guidance in ordering and interpreting genetic testing.
- Discuss ethical implications of genetic testing and barriers to genetics testing.

### Faculty from Children's Hospital Colorado | University of Colorado

Ellen Roy Elias, MD, FAAP, FACMG

Professor, Pediatrics and Genetics, University of Colorado School of Medicine

Director, Special Care Clinic at Children's Hospital Colorado
