

MEET THE MSRGN COLORADO GENETIC NAVIGATOR

Jamie Stefanski

A little about me:

- I have navigated genetics for my own children with the rare genetic disorder: TELO2/You-Hoover-Fong Syndrome.
- I have lived in Colorado since 2017 as well as 5 other states and have experience navigating many "systems" including genetics.
- I also work with children and families as a Physical Therapist and ABM NeuroMovement Practitioner.

How I Can Help a Family Navigate Genetics...

- Discuss next steps with a family who has concerns, for example, ways they can talk with their doctor.
- Provide resources to a family who has encountered a barrier to accessing genetic services.
- Connect families who have received a genetic diagnosis to support organizations.
- Meet with families who want to get more involved as an advocate in the genetic system.
