

MEET THE MSRGN MONTANA GENETIC NAVIGATOR

Jennifer Banna

A little about me:

- I have navigated genetics with my own child.
 - Genetics became a large part of my life when my daughter was diagnosed with PittHopkins Syndrome in 2012.
- I also direct the Montana Family to Family Health Information Center.

How I Can Help a Family Navigate Genetics...

- Discuss next steps with a family who has concerns, for example, ways they can talk with their doctor.
- Provide resources to a family who has encountered a barrier to accessing genetic services.
- Connect families who have received a genetic diagnosis to support organizations.
- Meet with families who want to get more involved as an advocate in the genetic system.
