

Rock Report: Breakout Room #2: Montana & New Mexico

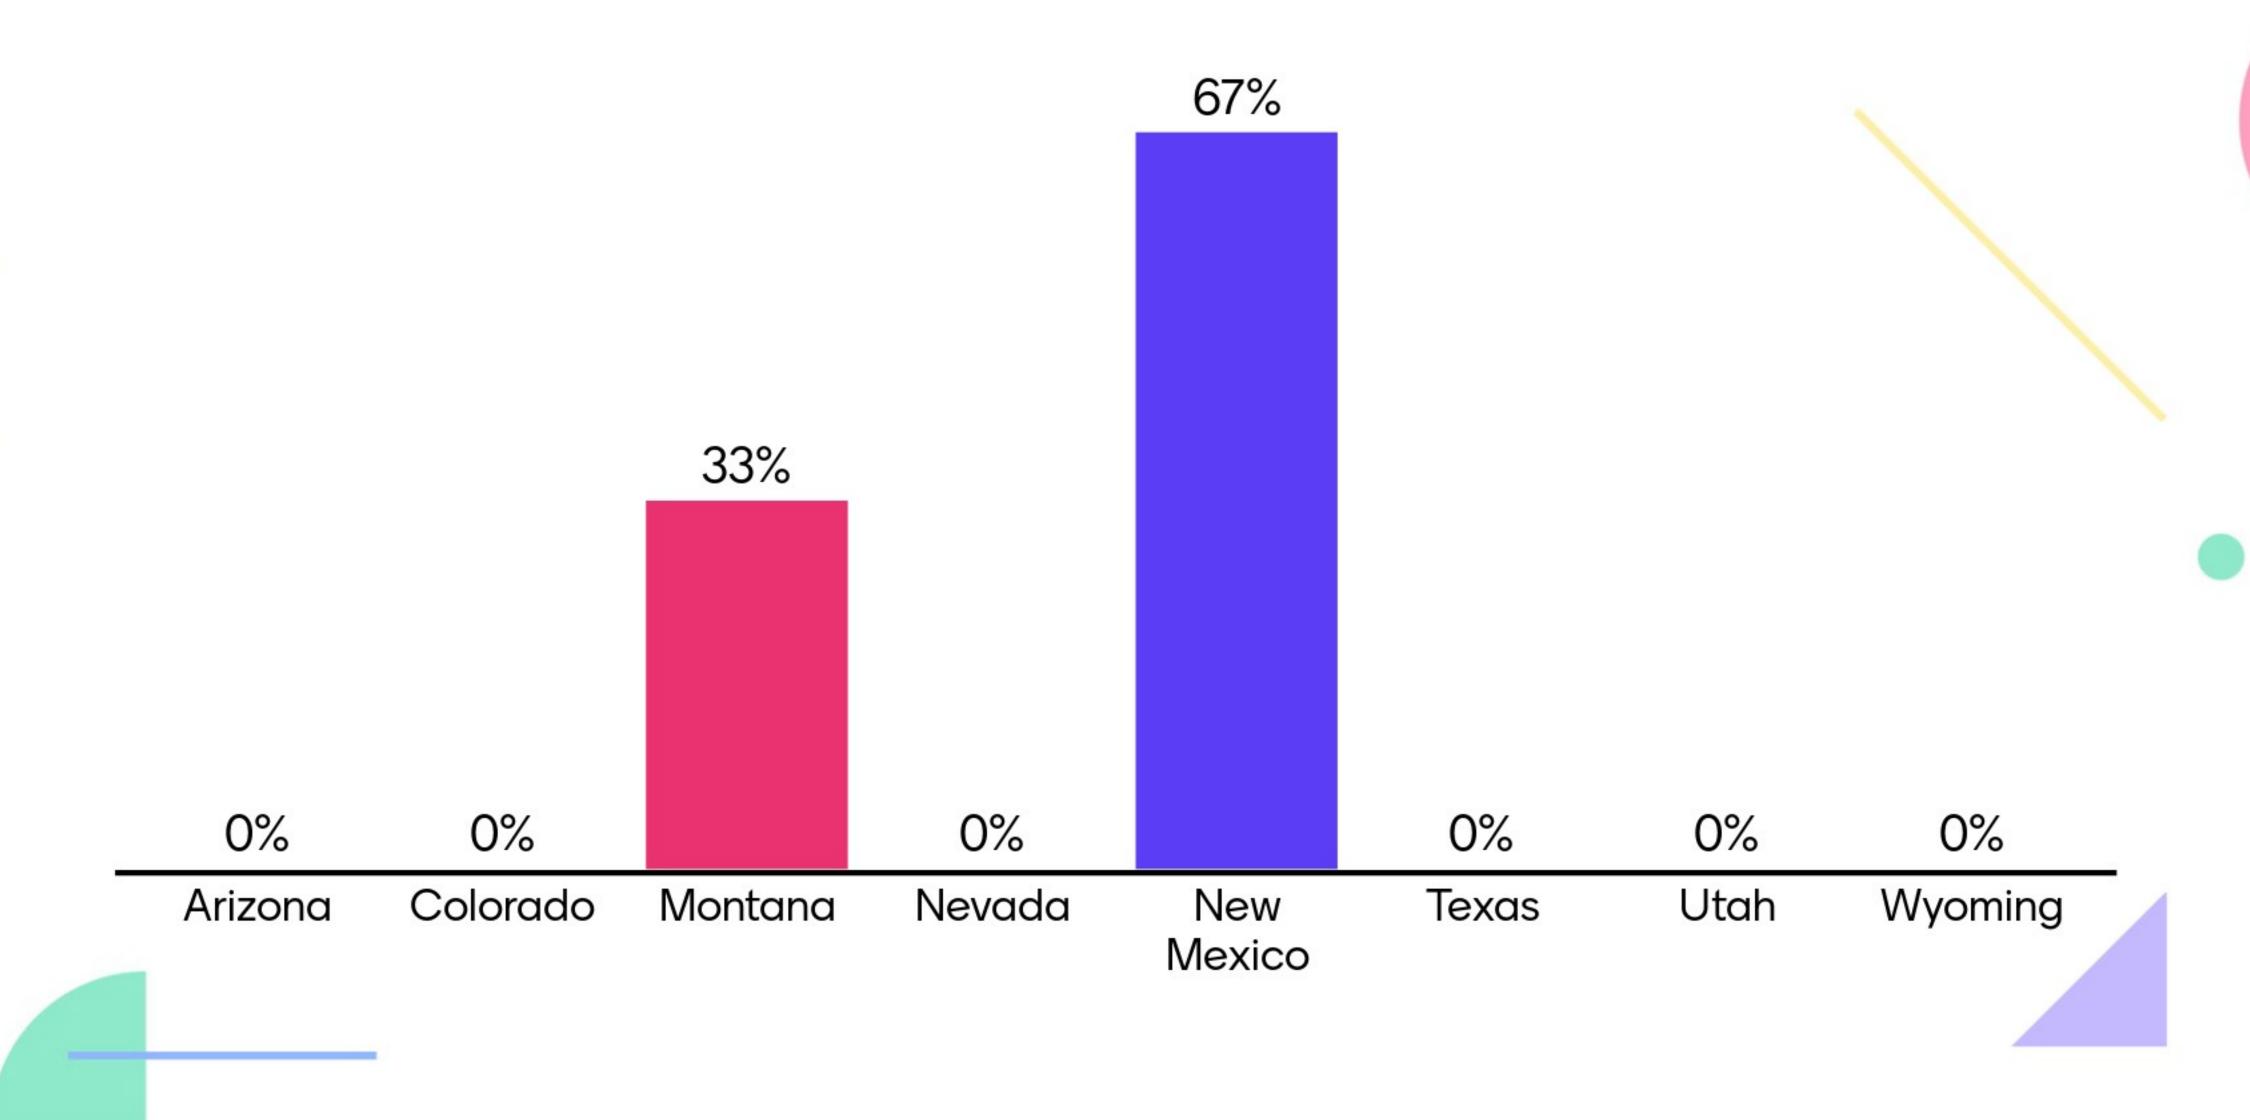

Welcome to MSRGN's Breakout room! You have arrived at the right place! Hang out for a moment until the moderator advances to the next slide.

Remember our picture with the family trying to access genetics...

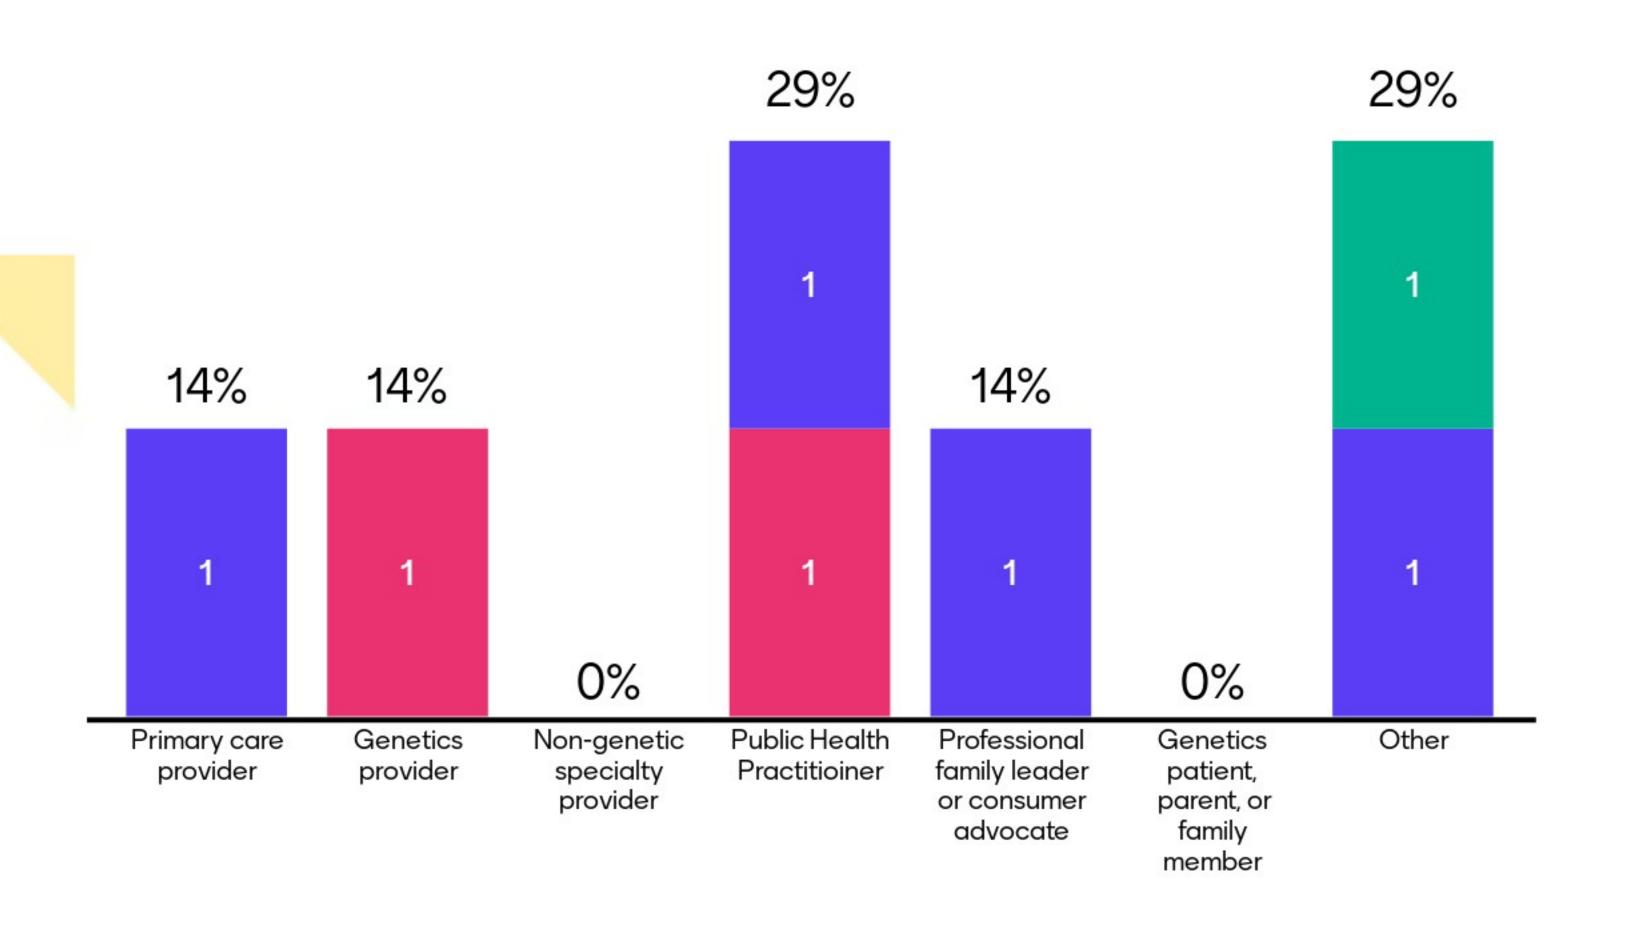

What state do you live in?

l am a...

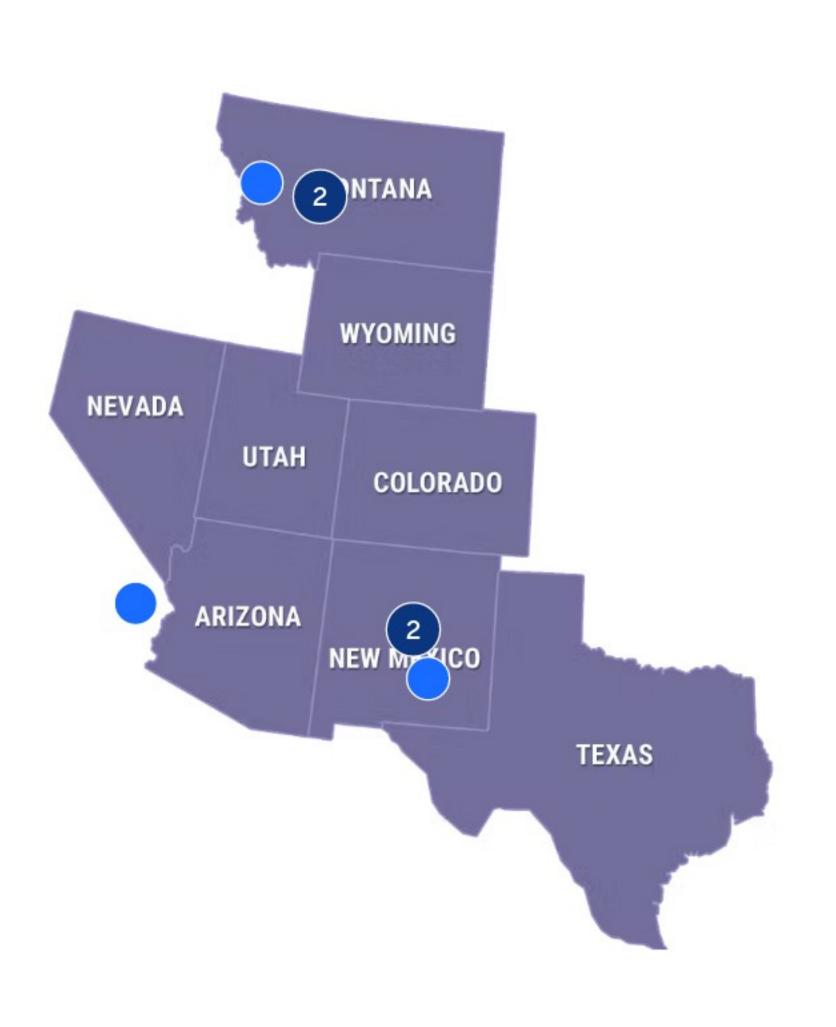

What state do you live in?

- Arizona
- Colorado
- Montana
- Nevada
- New Mexico
- Texas
- Utah
- Wyoming
- Unknown

Drop a pin on where you live in the Mountain States

Rate these Statements: Agree/Disagree

Strongly disagree

Accessing genetics is challenging for all families in my state

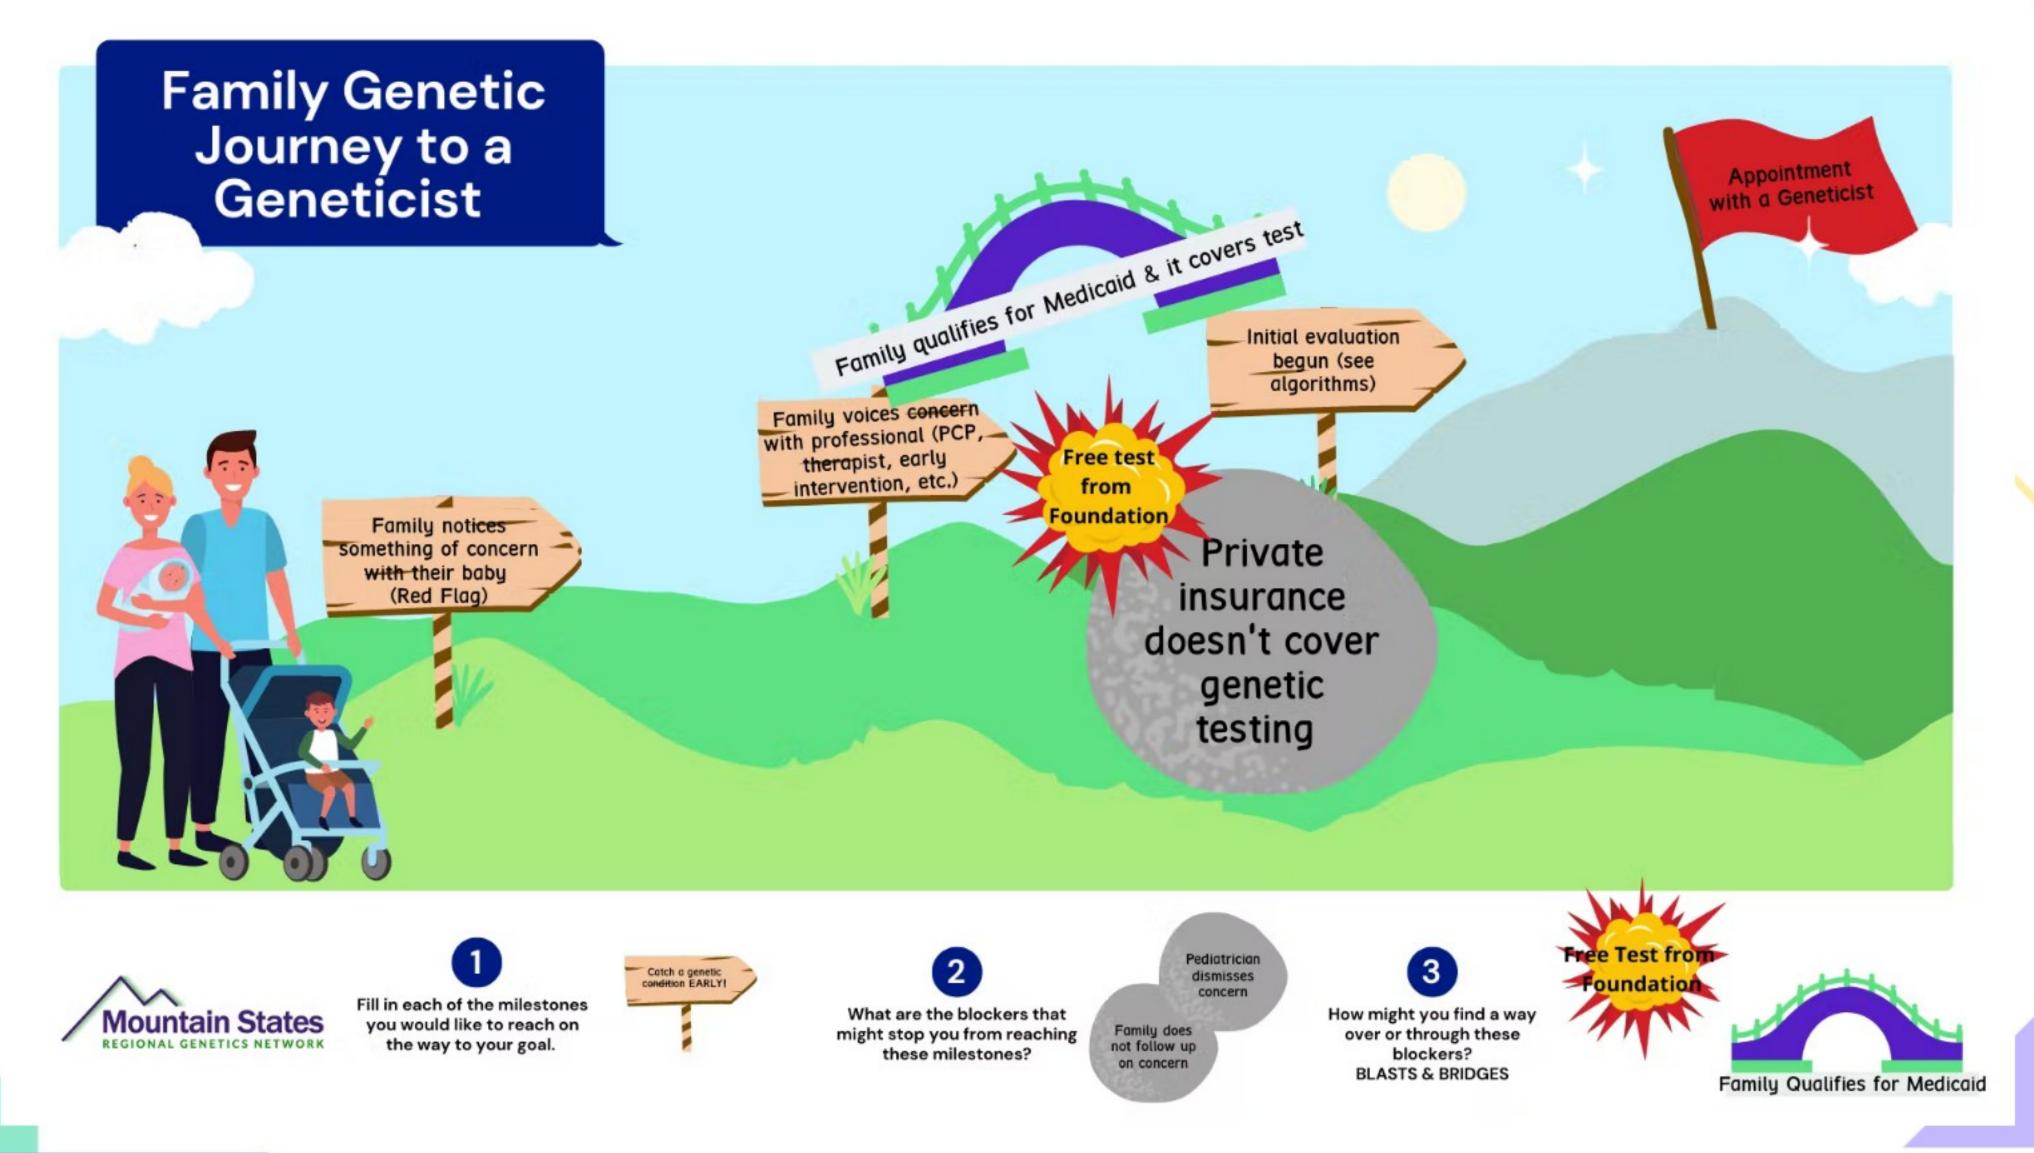

3.4

There is a clearly defined path for all families to have access to genetics in my state

3.6

There are few boulders/barriers for families in accessing genetics in my state

Remember our picture again and the BOULDER....

What do you think is the biggest BOULDER (barrier) for families accessing genetics in your state?

rural community getting an appointment

lack of providers

transportation distance
no easy path long wait time
one pediatric provider
too long of waits

one regional center

wait time appointment distances

Of the words you just saw in the word cloud... what is the biggest BOULDER (barrier) for families accessing genetics in your state?

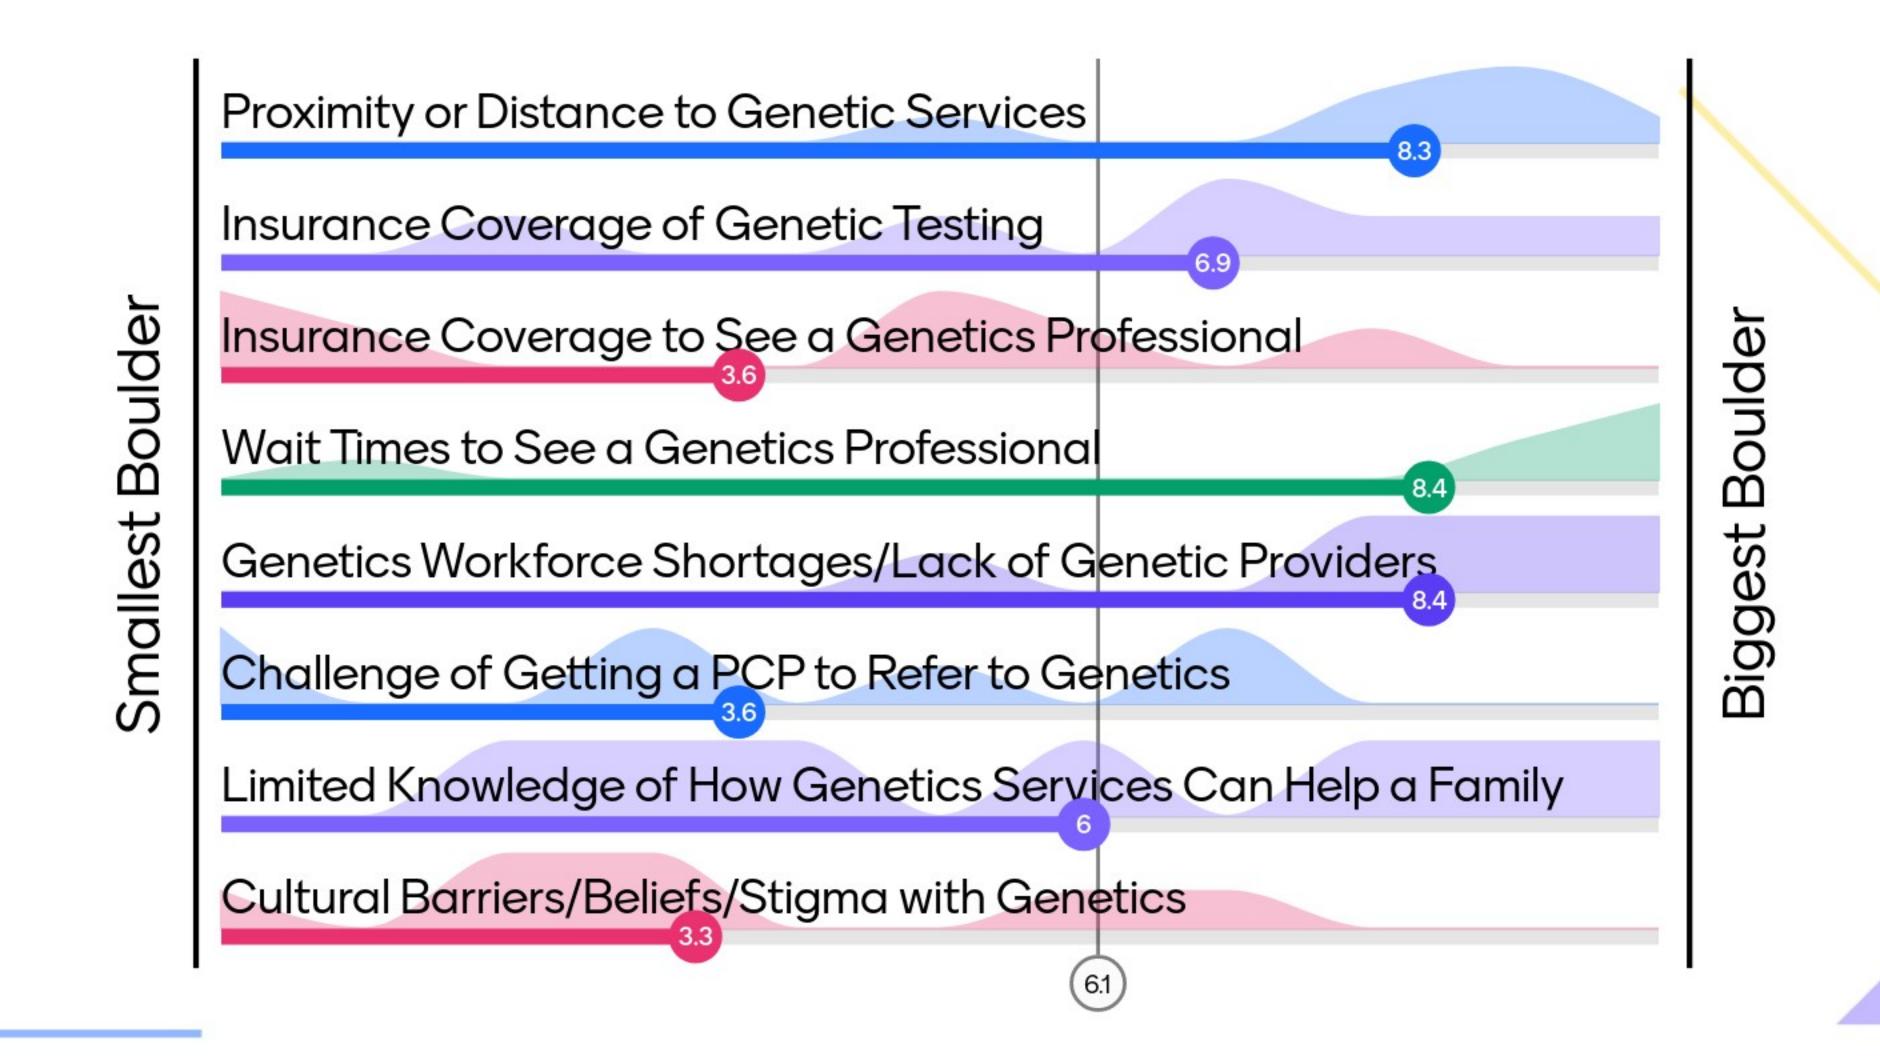

distance wait time Appointments

Long wait times Distances

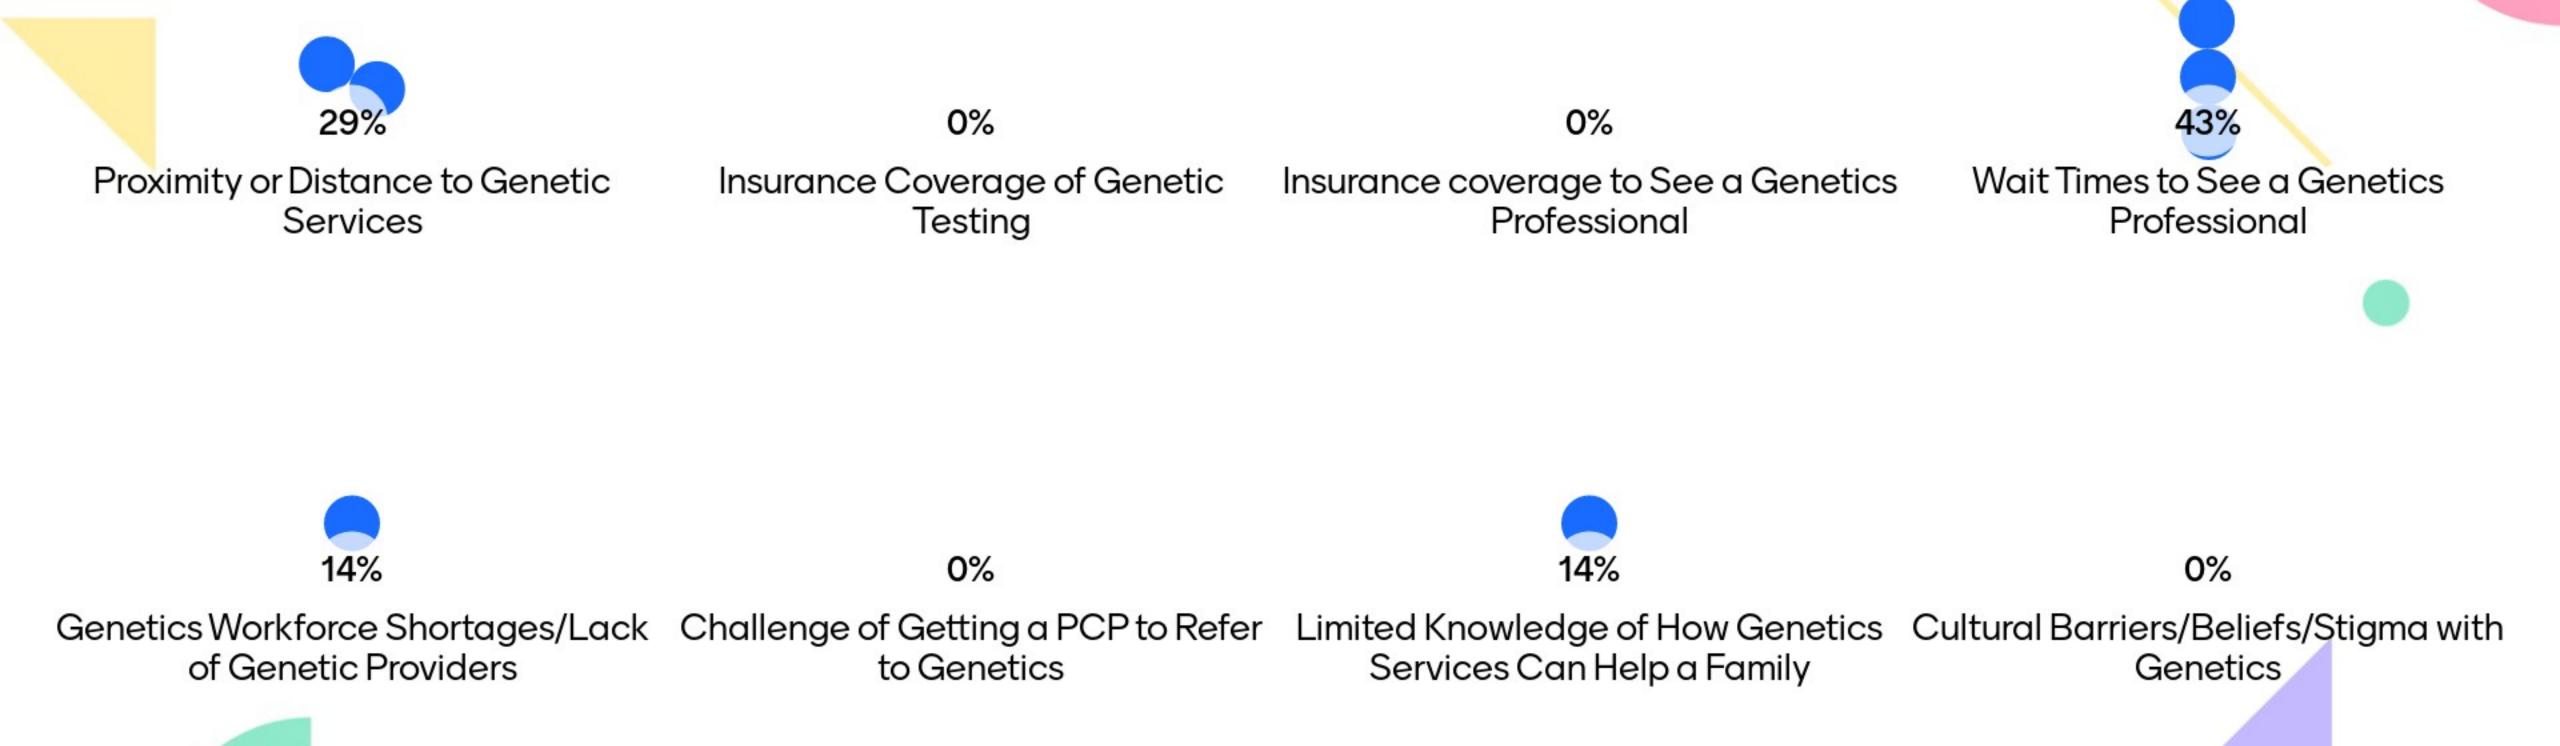

Distance Lack of providers One regional academic center

These are some things we have been hearing from families and AC as BOULDERS. Choose a value for each boulder from smallest (1) to biggest (10)

Which of these BOULDERS is the biggest (in your state)?

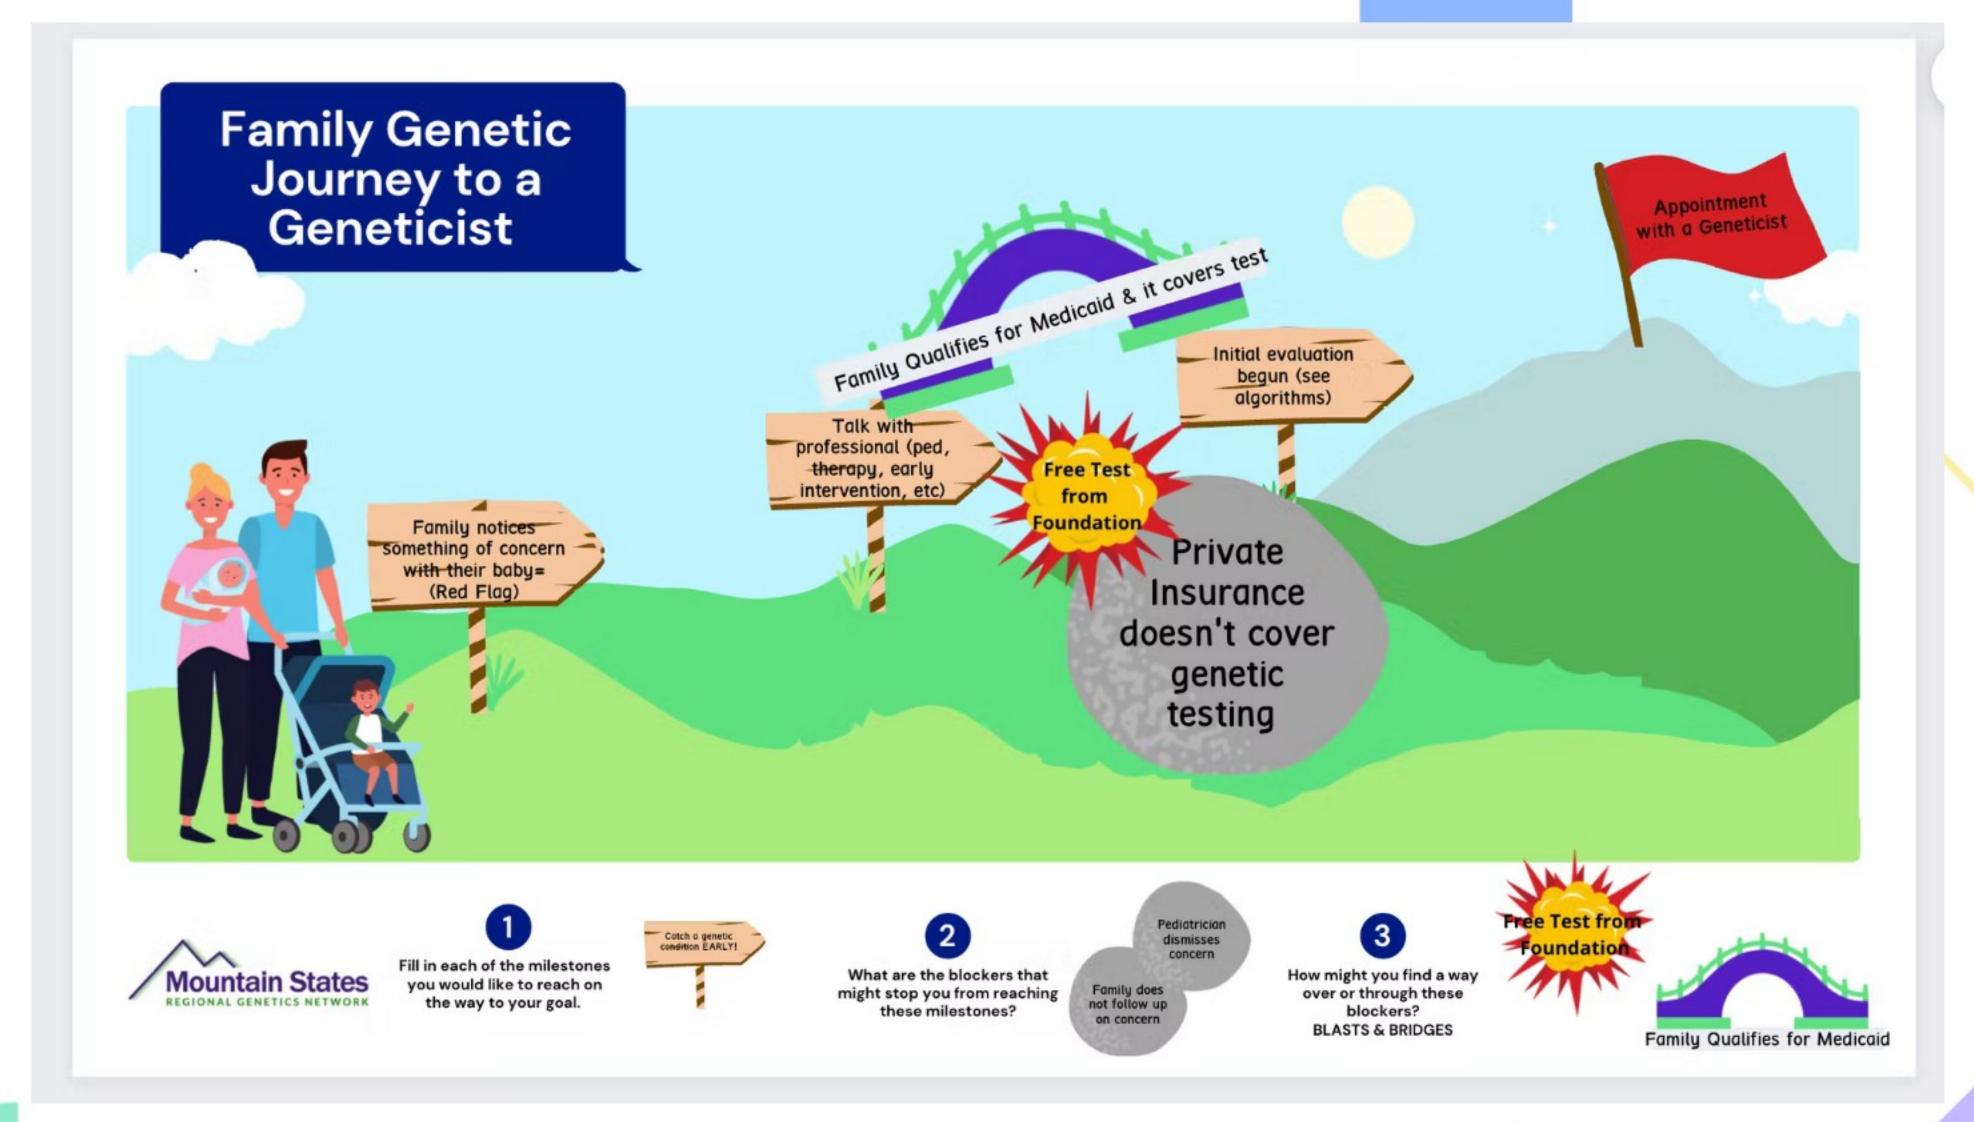

Solution time!

Blasting and Bridging our Boulders

Let's pick a BIG boulder and brainstorm on Solutions!

STOP! Gain Consensus from the Breakout Room on a BIG BOULDER to tackle for SOLUTIONS

STOP! Pick ONE BOULDER before you go to next slide. Moderator please write down the BOULDER picked by the group!

Our Big BOULDER is ____! Braindump and Brainstorm any and all ways to BLAST (remove barrier) this Boulder! 3, 2, 1 - GO!

Asynchronous telemedicine

Outreach clinics

Use MSF model

Crossing states to other regional center. NM to CO

Telemedicine

Enable PCPs to order appropriate genetic testing

Establish insurance reimbursement for Genetic Counselors

Form regional or national collaborative to provide services

Our Big BOULDER is ____! Braindump and Brainstorm any and all ways to BRIDGE (partnership to go around, over) this Boulder! 3, 2, 1 - GO!

Telemedicine; real time and asynchronous

Support pcp's - easier consultation access to a geneticist maybe a regional consult line Insurance and Medicaid Providers at the table to hear about access issues.

Develop regional or national collaborative to fill gaps in accessing genetic professionals

Establish way for geneticist to consult with PCP for ordering testing

CO to NM Telemedicine made families in NM drive to state line, about 40 Miles to start Genetics appointment.

Now let's think about ALL the other Boulders that have been mentioned today... and let's BLAST and BRIDGE them! Type in the box BOULDER: SOLUTION

Don't delay referrals to El or services while waiting

Regional Genetics provider meets with family, then meets with primary care to discuss testing, lab to send to. Referral was made initially by primary care provider.

Easier ways for families to navigate Medicaid travel reimbursement

Group transpiration? Native American, Hutterite populations come to mind

Wait times: PCP's start referrals to other providers based on symptoms

Thanks for joining us!

We will now be exiting the breakout room and joining the main session after a 15 minute break. If you remain logged into zoom you will automatically be taken back to the main session 5 minutes before the next session ends. If you would like to finish a conversation over the break, feel free to hang out here for a few minutes to chat before the next session begins at 4pm CT.

But, if you want or need to take a break, please do so by turning your off your camera and mic.

Break Time 3:45-4:00 PM CT
