

MEET THE MSRGN WYOMING GENETIC NAVIGATOR

Kala McWain

A little about me:

- I live in Casper Wyoming with my husband and 2 children.
- My youngest son Braxton was diagnosed with phenylketonuria (PKU), a rare metabolic disorder, at only four days old.
- I work tirelessly to build public awareness of the disease and advocate for the needs of my son and others with genetic conditions.

How I Can Help a Family Navigate Genetics...

- Discuss next steps with a family who has concerns, for example, ways they can talk with their doctor.
- Provide resources to a family who has encountered a barrier to accessing genetic services.
- Connect families who have received a genetic diagnosis to support organizations.
- Meet with families who want to get more involved as an advocate in the genetic system.
